India]] in 1947. This theory supported the proposal that Muslims and non-Muslims should be two s. It is the ideology unifying aspect of Musms in the Indian subcontinent religion, rather than their language or ethnicity.. The two-nation theory was a founding principle of the Pakistan Movement, and the partition of India in 1947. The ideology that religion is the main factor in defining the ...

Overview. The show starts by being centred on two male Caltech scientists who share an apartment in Pasadena, California. They are in their twenties and are both single for the first two seasons. One is an experimental physicist from New Jersey (Leonard Hofstadter). The other is a theoretical physicist from Texas (Sheldon Cooper). Sheldon has Asperger syndrome and obsessive-compulsive personality ...

In mathematics, and more specifically in graph theory, a graph is a structure amounting to a set of objects in which some pairs of the objects are in some sense "related". The objects correspond to mathematical abstractions called vertices (also called nodes or points) and each of the related pairs of vertices is called an edge (also called an arc or line).
