Social exchange theory is a sociological and psychological theory that studies the social behavior in the interaction of two parties that implement a cost-benefit analysis to determine risks and benefits. Also, the theory involves economic relationships, it occurs when each party have goods that the other parties value. Social exchange theory suggests that these calculations occur on romantic ...

A Comparison of Two Theories of Learning -- Behaviorism

Social comparison theory, initially proposed by social psychologist Leon Festinger in 1954, centers on the belief that there is a drive within individuals to gain accurate self-evaluations. The theory explains how individuals evaluate their own opinions and abilities by comparing themselves to others in order to reduce uncertainty in these domains, and learn how to define the self.

Glaser (1978), Glaser (1992) has remained true to this commitment. Induction is viewed as the key process, with the researcher moving from the data to empirical generalisation and on to theory (Bulmer, 1979). This is illustrated in Fig. 1. As the data are analysed and coded, ideas and potential insights will begin to develop which are recorded in theoretical memos; it is the data that develops ...
