Introduction and Purpose First aid is emergency care provided for injury or sudden illness before emergency medical treatment is available. The first-aid

Best Practices Guide: Fundamentals of a Workplace First

First aid is the assistance given to any person suffering a serious illness or injury, with care provided to preserve life, prevent the condition from worsening, or to promote recovery. It includes initial intervention in a serious condition prior to professional medical help being available, such as performing cardiopulmonary resuscitation (CPR) while awaiting an ambulance, as well as the ...

First aid at work - Health and Safety Executive

A first aid kit is a collection of supplies and equipment that is used to give medical treatment. There is a wide variation in the contents of first aid kits based on the knowledge and experience of those putting it together, the differing first aid requirements of the area where it may be used and variations in legislation or regulation in a given area.
