

encyclopedia of antique scientific pdf

White is the lightest color and is achromatic (having no hue).It is the color of fresh snow, chalk, and milk, and is the opposite of black.White objects fully reflect and scatter all the visible wavelengths of light.White on television and computer screens is created by a mixture of red, blue and green light.

White - Wikipedia

The history of scientific method considers changes in the methodology of scientific inquiry, as distinct from the history of science itself. The development of rules for scientific reasoning has not been straightforward; scientific method has been the subject of intense and recurring debate throughout the history of science, and eminent natural philosophers and scientists have argued for the ...
