In mathematics, the support of a real-valued function f is the subset of the domain containing those elements which are not mapped to zero. If the domain of f is a topological space, the support of f is instead defined as the smallest closed set containing all points not mapped to zero. This concept is used very widely in mathematical analysis

The Ideal Team Player. In his classic, best-selling book, The Five Dysfunctions of a Team, Patrick Lencioni laid out a groundbreaking new approach for attacking the dangerous group behaviors that destroy teamwork. Here, he turns his focus to the individual member of a team, revealing the three indispensable virtues that make some people better team players than others.
