

facets of virtual environments pdf

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

Communication. Online identity in classrooms forces people to reevaluate their concepts of classroom environments. [citation needed] With the invention of online classes, classrooms have changed and no longer have the traditional face-to-face communications. These communications have been replaced by computer screen.

Language@Internet , 4 , article 1 (2007) - This article describes a classification scheme for computer-mediated discourse that classifies samples in terms of clusters of features, or "facets". The goal of the scheme is to synthesize and articulate aspects of technical and social context that influence discourse usage in CMC environments.

A Faceted Classification Scheme for Computer-Mediated
