Fluid management and fluid filtration are areas in which proper pressure switch performance is extremely important. Within fluid management applications, pressure switches are necessary to properly control pump mechanisms.

Fluid Filtration - Solon Manufacturing Co.

The new SumpDoc provides complete solids removal and fluid recycling at the sump. Twin STAR Vacuum filters deliver "super" clean coolant at a constant temperature to more than 20 machining centers. Rolled media vacuum filter installed in a bearing grinding operation, provides clean coolant plant wide.

Complete Cutting Fluid Recycling and Filtration Systems

We offer the RL-1AB Series Cartridge for high efficiency removal of particulates from liquid when a "Bete Rated" , high efficiency filter is required. These filter elements are constructed with a special glass-cellulose media. The high glass content of the media allows these filters to insure high flow rates and efficient filtration in water based fluids, chemicals or petroleum based fluids.
