I'm running into an issue that I'm not sure at the moment how to sort out. Because I recently got into amateur radio, there is a LOT that I still don't know, and among that is that I haven't learned how to make good use of a smith chart.

### **Ham Radio | KV5R.COM**

Amateur radio, also known as ham radio, describes the use of radio frequency spectrum for purposes of non-commercial exchange of messages, wireless experimentation, self-training, private recreation, radiosport, contesting, and emergency communication. The term "amateur" is used to specify "a duly authorized person interested in radioelectric practice with a purely personal aim and without ...

Amplitude modulation (AM) was once the main voice mode in amateur radio before being superseded by Single-sideband modulation (SSB). But AM has recently become a nostalgic specialty interest on the shortwave ham bands. Vintage radio operation has drawn a wide range of amateur radio enthusiasts from rock star Joe Walsh, WB6ACU, to former Federal Communications Commission attorney Riley ...
