Economic inequality covers a wide variety of topics. It can refer to either income distribution (measuring the amount of money people are paid) or the distribution of wealth, (the amount of wealth people own).. Besides measurements between countries or states, there are important types of economic inequality between groups of people.

Surplus product (German: Mehrprodukt) is an economic concept explicitly theorised by Karl Marx in his critique of political economy. Marx first began to work out his idea of surplus product in his 1844 notes on James Mill's Elements of political economy.. Notions of "surplus produce" have been used in economic thought and commerce for a long time (notably by the Physiocrats), but in Das Kapital ...
