

### **web application development with pdf**

In computing, a web application or web app is a client–server computer program which the client (including the user interface and client-side logic) runs in a web browser. Common web applications include webmail, online retail sales, and online auction

### **Web application - Wikipedia**

A web framework (WF) or web application framework (WAF) is a software framework that is designed to support the development of web applications including web services, web resources, and web APIs. Web frameworks provide a standard way to build and deploy web applications on the World Wide Web. Web frameworks aim to automate the overhead associated with common activities performed in web development.

In the action method you can obtain the HTTP servlet response from under the JSF hoods by `ExternalContext#getResponse()`. Then you need to set at least the HTTP Content-Type header to `application/pdf` and the HTTP Content-Disposition header to `attachment` (when you want to pop a Save As dialogue) or to `inline` (when you want to let the web browser handle the display itself).
